# Custom precoating for your every need

For over 40 years, **Alusteel Coating** has been an **atelier for the continuous liquid coating of aluminium and steels**, offering an endless variety of colours and finishes able to meet the market's every request.

We are an **outstanding manufacturing partner** for the most complex and innovative design challenges. Our work is an integral part of the product and service **quality** concept, largely thanks to a **highly specialised work team**.

# An Italian history and identity

**Our company** is backed by a deep-rooted tradition and extensive **expertise**, which have guided them along a path that began in **1979**.

over  
**40** years

Our identity is expressed in the **hummingbird** design featured in our logo. The extraordinary mobility of this bird's wings allows for a virtuoso flight performance, symbolising our extreme versatility and our ability to meet our customers' every need, while the variety of vibrant colours represents the limitless coating solutions we offer.

# Network of excellence

Alusteel Coating is part of a group of companies in the coating universe of which **Matteo Trombetta Cappellani** is the **President** and **CEO**. Remaining faithful to its aesthetic and **ethical** values, the company always places **environmental sustainability** at the forefront of its operations, as well as valuing its **human resources** through investments aimed at fostering the **well-being of the local area** and its **inhabitants**.

The other companies are **Metalcoat** (production of pre-painted aluminium and steel coils, consulting services, development and sales in Italy and in East Europe), **Alpine Anodizing** (production of anodized aluminium coils) and **Aleu** (sales on the European and extra-European market).

“The entrepreneur must play a social role, must be able to listen and see where change is happening.”

Matteo Trombetta Cappellani

# Italian heart, international expertise

Our **turnover has grown constantly** since day one, in line with the **development** and **expansion** objectives of our business, and indicative of the excellent quality of our products and the huge range of efficient solutions we have to offer.

Our **wide-ranging sales network** allows us to guarantee a global service and a strong presence in every market, while remaining faithful to our **Italian essence**.

# Integrated into the local area

Alusteel Coating is headquartered in **Somaglia (Lodi)**: the offices and the entire production facilities of the company occupy an area of over 30,000 m<sup>2</sup>.

The **low environmental and energy impact** of the factory is guaranteed by a 5000 m<sup>2</sup> **photovoltaic plant** able to produce 570,000 kWh of energy per year, and a state-of-the-art **Zero Waste purification plant** for the collection of waste water, currently under development.

# Technologically advanced precoating

The Alusteel Coating factory is equipped with **advanced machinery** and **modern production technologies** for the **precoating** of coils in aluminium, steel and any other metal requested by the customer, with a production capacity of 10 million m<sup>2</sup> per year. The plant can work with coils with a width of between 500 and 1,320 mm, an external diameter of between 700 and 1,300 mm and an internal diameter of between 508 and 610 mm. Thicknesses range from 0.3 to 1.5 mm.

# Custom service

In keeping with its vocation as an atelier offering a bespoke service, Alusteel Coating has an **exclusive service centre for its customers**, offering finishing, cutting to measure and packaging of tape and sheets.

The machinery works with tape from 20 mm, and sheets with a width of between 500 and 1,320 mm and custom lengths, depending on the needs of the customer.

# Beautiful and well made: our values for lasting over time

Our company has a clearly defined essence: **creativity**, the founding element in our production process, is combined with a **project-oriented approach, style, elegance** and a feeling for **beauty**: all distinctive signs of the **Made in Italy** concept and drivers recognised worldwide.

We have always been committed to blending intellectual curiosity and cultural interests with a quest for new ideas in order to offer our customers a tailor-made service. We satisfy even the most challenging demands while always remaining anchored to our values: the cult of **beauty**, attention to **details**, quest for **quality** and utmost respect for the **environment**.

## tailor-made

# Our coating cycles

Alusteel Coating's **aluminium sheets** and **coated steel** are used in the **construction** and **industrial** sectors, offering an effective, revolutionary solution for **architectural façade coverings, industrial roofing** and **components** for **home appliances** and **cars**, and giving each end product a highly innovative look, in addition to the clear advantages connected with the mechanical characteristics.

Thanks to the wide range of **coating systems** and the various **finishing techniques**, Alusteel Coating is able to offer a virtually endless variety of semi-finished products.

# A product of excellence, partner of design projects

Thanks to our **products**, we are able to meet design requirements in the supply of pre-painted metals for numerous **industrial** sectors, ranging from **architecture** and **design** – increasingly oriented towards the realization of customised, cutting-edge projects with a focus on environmental sustainability – to manufacturers of **home appliances** and **automotive** and **naval** components.

Our objective is to prove ourselves as reliable, competent **partners**, capable of providing our customers with a flexible, high-quality service that ranges from consultancy to the supply of materials and after-sales support.

# A certified sustainable business model

We have always been committed to guaranteeing the **highest standards** to make our business model increasingly **sustainable**.

safety  
health  
environment

Consistently with our **Worker Health and Safety and Environmental Protection Policy**, we have implemented a Quality Management System in accordance with **UNI EN ISO 9001:2015** and an Environmental Management System in accordance with **UNI EN ISO 14001:2018**, as well as an Occupational Health and Safety Management System in accordance with **UNI ISO 45001:2018**.

# Together we build our planet's future

We work with aluminium and steel, recyclable and sustainable materials par excellence. This allows us to save **95%** of the energy necessary to produce new material.

**Cost savings** and **environmental** protection are enhanced through the use of **alternative energy** sources, **recycling** of paints, **recovery of energy** used in production, wastewater resource recovery and **reduction** of production waste.

# 95%

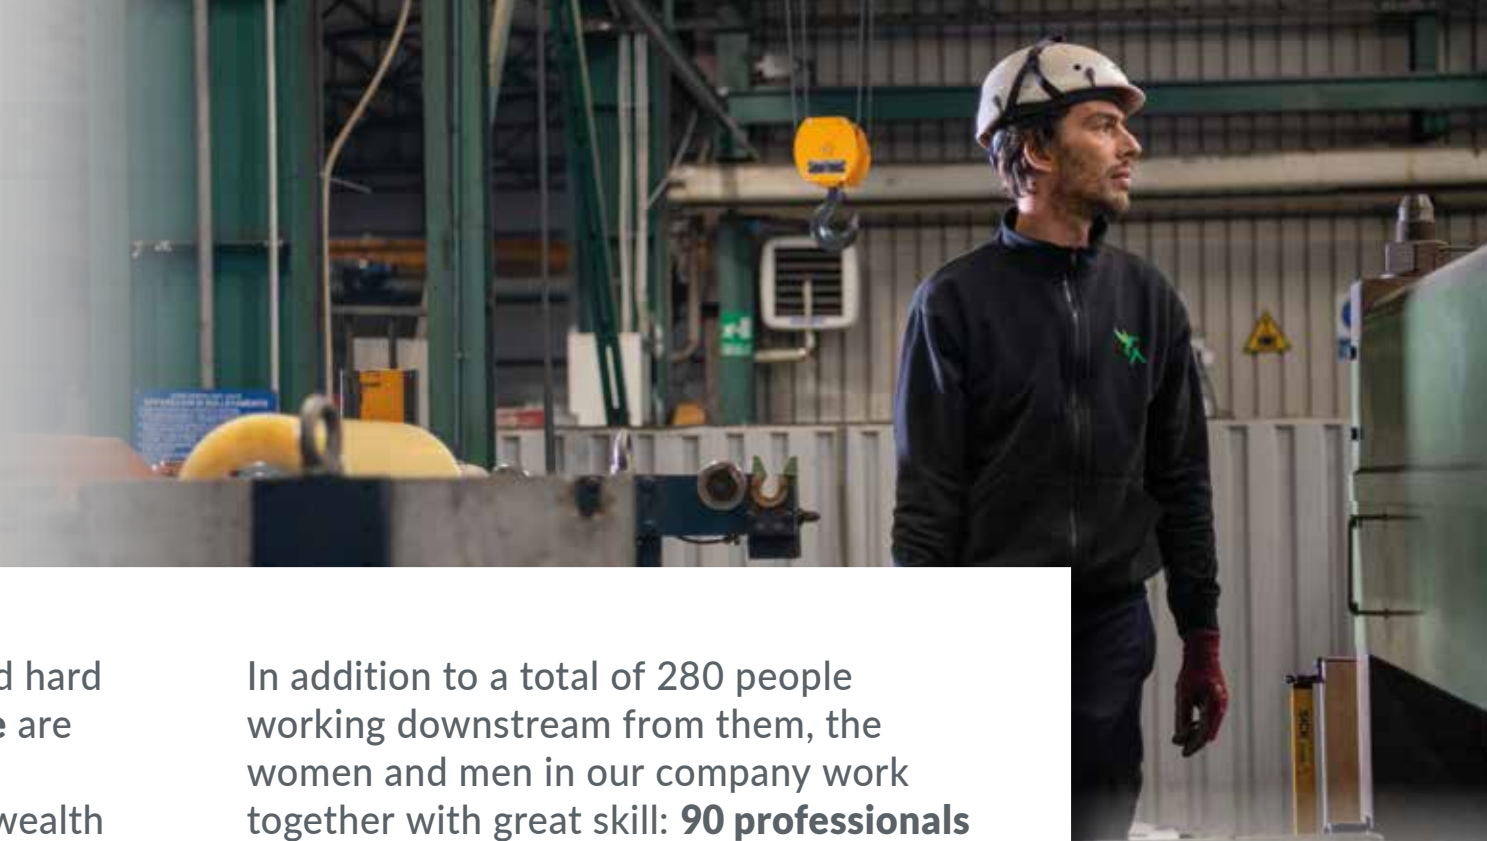

# Our face, our soul

We are curious, enterprising, and hard working. We believe that **people** are the driving force of a company. They are an essential source of wealth and a fundamental strategic factor for competing successfully in a continuously evolving global market.

In addition to a total of 280 people working downstream from them, the women and men in our company work together with great skill: **90 professionals** characterised by a strong team spirit, who not only pursue the objective of achieving excellence every day, but also share a common vision and concern for environmental **sustainability**, as well as a strong link to the **community**: a value to be preserved, supported, cultivated and to which we strive to bring wellbeing.
